

E-BOOKS DEPARTMENT

Our company works with identification, selection and supply of academic content to university libraries. But we continued to progress and during the latest years we have added the offer of new services; among them you can find the digital book, thought to satisfy the needs of our patrons.

What is our goal?

Our goal is to enter to the digital books market, with a potential offer of publications with academic content, reducing cost with products at competitive prices for every customer profile. Supply to the libraries with a fast, personalized and high quality service.

What are the advantages of the digital book?

- Access of multiple users to a same content, at the same time and from different places.
- Costs reduction: neither moving, location or maintenance needed, nor security measures, loss or damage for the material.
- Faster and more efficient searches in your OPAC.
- It allows greater control and monitoring of the use of the content.
- Your patrons can access and read books, articles and papers from a server.

Why buy in Ventara – Librería García Cambeiro?

- Perpetual access; you pay for the service just once.
- RDA cataloguing. MARC Records (encoding level 4) included in the price.
- In field 856 of the MARC record, we add the URL that links to the book.
- We customize the 9XXs fields that your library needs.
- Proper content, eApproval plan. We select the e-books according to your profile. If you consider that the book is out of it, you can return it with no additional cost.
- We offer ePrefer. You library can choose among receiving the imprint, the digital edition or both.
- Imprint and digital coexist. We accomplished how to complement both formats improving the coverage of your library.
- You need no additional development. E-books are IP controlled and organized in Ebrary under VENTARA name.
- If you wish we can send to you the PDF of the e-book so you can file it.
- PDF format (enables the documents to be submitted online according to the original format of the printed version).

- Standard visualization. We give format the different materials ensuring that they all got the same standard.
- Simultaneous access for users. We offer SUPO (single user) and MUPO (multiple users) options.
- Invoice and MARC delivery options according to your convenience.

How to buy?

You do not need to do anything, just send us the contact information of the person who is in charge of the Ebooks area and we will get in touch with her/him.

- If you are already a client of Ebrary you just need to inform us about the titles in which you are interested, without any need of doing additional adaptations.
- If your library has no open channel in Ebrary, you have got two options:
 1. To open a channel in Ebrary
 2. To open a channel in Ventara (if you choose this we would need you to send to us the IP of your library)

If your library already gets our imprint Approval Plan...

You can choose and purchase any e-book from the catalog using the available budget.

How to get the MARC and the invoices?

There are 3 possibilities; we need to know which one is the more convenient for your library:

- SFTP o FTP-S. File in our server
- SFTP o FTP-S. File in the server of your library (If you prefer this option, we would need the following data: Server, Username, Password, Port)
- Via e-mail

9XX fields; ¿What additional information do you need?

We supply all the 9XX fields adapted to what your Library needs; you just have to communicate us the information that you require. Send us a sample of a record with the fields that you need to hector@cambeiro.com.ar and/or fill the following form:
